

Suggestions for Final Exams (2-2)

	Course	Syllabus & Suggestions
Thursday 11/09/2025	Math	Everything taught in mid and final lectures
3 days gap		
Monday 15/09/2025	Data & Telecom	Data Communications and Networking by Forouzan: Chapter 7 - ~5% No Need to memorize the numerical values such as presented in tables. Focus on formation, application, advantage, disadvantage or limitation of different media. Chapter 8 - (8.1-8.3) - ~5% Chapter 9 - ~10% Chapter 10 - ~15% Chapter 11 - ~15% Chapter 12 - ~15% Wireless. Communications PRINCIPLES AND PRACTICE By THEODORE S. RAPPAPORT: Chapter 2 - ~10% GSM System Survey by Ericsson Chapter 1,3 - ~15% Before MID: Chapter 4 - 10%
1 day gap		
Wednesday 17/09/2025	EEE	Syllabus will be provided in Google Classroom
1 day gap		
Friday 19/09/2025	Ethics	Everything taught after mid along with the 7 presentations uploaded Before Mid: Chapter 5
3 days gap		
Tuesday 23/09/2025	Algorithms	Suggestions will be provided in Google Classroom

2 days gap

Friday 26/09/2025	SAD	Question 1: (a) Compare and Contrast (two approaches in the scenario, select one). You should discuss the pros and cons and choose which is better based on the discussion (b) Prototyping techniques. Based on 1(a), there are multiple techniques, evaluate each and then pick the suitable one. Question 2: (a) Analyze based on scenario, identify 3 problems (b) What additional info will identify more problems? (Theory+ why needed, with context from scenario) Question 3: Data Dictionary - identify data element, element description from one data element to make a form (pick the data element carefully) Question 4: (a) Process specification: specify the process, create process specification form (everything but process logic) (b) Process logic (for the particular process given, which logic to choose) Question 5: Designing effective input+output: design artifact three features to focus on (only one page design) Question 6: Design coding scheme. Like: Data element, select appropriate scheme based on the question
